THE MASTER LINE OF **GIFTS** . . . designed for the discriminating buyer.

A new bronze finish has been created; deep in tone and highlighted reflections from the depth of color.

SunRay — a gold colored finish, lustrous and yet conservatively appropriate.

The Silver Plate is artistically oxidized, bringing out fine detail.

Diamond Black — used on selected numbers. The deep ebony finish highlighted by Silver Plate effects a most beautiful contrast.

The Combination Finish is a deep subdued bronze plate against radiant SunRay and shows beautiful and distinctive contrasts.

Master craftsmen and finishers assure perfect reproductions of the original sculpturings. All items are hand cast and hand finished. A close final inspection assures flawless merchandise . . . merchandise which you will be proud to display and sell.
